MICROFORMS IN THE BUSINESS AND GOVERNMENT INFORMATION CENTER

This bibliography consists of a numerical list and subject index to the microforms in the Business and Government Information Center. Most of the titles listed are document collections, but a few are microform indexes to other materials. The list generally does not include microfiche that accompanied a book or microfiche that replaced missing print journal issues.

The main entry for each title in the numerical list includes the call number, the title as it appears on our shelflist cards, the date of the data or date of publication, and the author or producer. Since much of the material listed is not fully cataloged, the format of the titles and authors may not conform to current library standards; however, some effort has been made to standardize the corporate author entries. Guides or indexes, in print or computer file, to these microform collections are indented below the main entry.

Gaps in the numerical sequence are due to materials held in other locations or due to unused numbers.
